

# K & D Action Photo & Aerial Imaging

We are an aerial imaging business with 15 years experience in sUAS (drone) technology. We are 107 Certified, and insured. We offer an imaging service using a commercial DJI Mavic 3 Pro Cinema Series Drone. A very capable tool in the imaging environment. It uses Hasselblad certified imaging camera for extreme resolution.

We also have a DJI Enterprise Matrice 30T for inspections, Search, and Construction progression. Projects include drainage monitoring and location of problem areas causing flooding.

*Real Estate*  
*360 Virtual Tours*  
*Special Events*

# AERIAL & STANDARD IMAGING REAL ESTATE

We have experience in capturing with drone or traditional camera properties for advertised sale.

# AERIAL SEARCH

A new component of our business is offering search services. This is basic service that does not require rescue. With our Matrice 30T thermal imaging drone we can assist with locating a lost person or family pet.

# 360 VIRTUAL TOURS FOR WEBSITES, EVENTS AND REAL ESTATE FOR REMOTE CLIENTS

Watch remotely as your project comes to life with virtual walk throughs inside and aerial imaging from the exterior. We create the tour with virtual tour software and you can monitor your project remotely. It is a great tool for inspecting phases of your house or commercial build.
